

## Garage Hire Policy

### Garage Hire

Garages are for hire at all Track Championship Events held at Hidden Valley Drag Strip to teams competing in eligible classes, excluding major events.

### Eligible Classes

Any class competing in the Track Championship Series is able to hire a garage.

### Cost

Garages are available for \$100 per event.

### How to Book

Garages can be booked as part of the event registration process. Choosing to hire a garage will automatically add the garage hire fee to the cost of your event registration.

### Availability

Garages are available on a first in first served basis. Garage numbers will be assigned after the closure of event registrations and you will be notified via email prior to the event. Request for a garage during event registration does not mean one is available. If all garages are filled you will be refunded your hire fee.

Garages may not be available for major events such as the ANDRA Drag Racing Series.

Garages must be cleaned and vacated at the completion of the event. Vehicles and equipment may not be stored in the garages after the event.

### Cleaning

Hirees are responsible for cleaning their garage at the end of the event. This includes all rubbish, dirt, debris and fluids. Garages not cleaned will have a \$50 cleaning fee automatically charged to the competitor's credit card.

### Garage Layout

Not all garages have dividing walls. You may be assigned a garage that does not have a dividing wall between you and your neighbouring competitor. Please respect your fellow competitors and ensure you remain within the confines of your garage.
